SUMMARY

Full stack developer with hands-on training in building web applications with React and Django. Comfortable working across the frontend and the backend, with a focus on clean code and understanding how things work. Looking for a junior full stack position to learn and contribute to real products.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React
Backend: Python, Django, Django REST Framework, Node.js
Database: MySQL
Tools: Git, GitHub

EXPERIENCE

Full Stack Developer Trainee - Cyparta, October City, Egypt
June 2026 - September 2026

- Worked on both the frontend and the backend of web applications.
- Built the web projects listed below, covering both the frontend and the backend.
- Developed REST APIs with Django and Django REST Framework, and user interfaces with React and Vite.

PROJECTS

Hospital Management API | github.com/Rawan-ahmed00/hospital-management-api

- A REST API for managing hospital data, built with Django and Django REST Framework.

Craftsmen Platform | github.com/Rawan-ahmed00/crafsmen_platform

- A Django REST API that connects customers with skilled technicians.

School Attendance Platform | github.com/Rawan-ahmed00/attendance-platform

- A platform for managing school attendance and student grades.

Mallora | github.com/Rawan-ahmed00/mallora

- A modern, responsive e-commerce store built with React and Vite.

Recipe Finder | github.com/Rawan-ahmed00/recipe-finder

- A web app to search for recipes, filter by category, and save favorites. Built with React and Vite.

EDUCATION

Faculty of Computers, Information Systems Department - Delta Academy for Science and Technology
Fourth-year student, expected graduation 2027

LANGUAGES

Arabic (Native), English (Good)
